Hospital Infection Control
1997 Index

Abstract and Commentary
antibiotic policies fail to stem prescribing, APR:60
curbside consults and infection control, MAR:44
false-positive TB cultures, JUN:92
home hand cream fuels outbreak, OCT:158
impregnated catheters prevent infections, NOV:171,
lab findings and infection care, JUL:111
plant oils kill MRSA and VRE, DEC:188
provider-to-patient hepatitis transmission, FEB:21
TB skin tests imperfect, SEP:143
too suspicious of nosocomial meningitis, DEC:188

Antibiotic resistance
ICUs the front lines in battle to prevent, SEP:134
threatens antibiotic era in medicine, JUN:85

Association for Professionals in Infection Control and Epidemiology
challenges risk, cost estimates in OSHA TB standard, DEC:181
says data generated by Patient Safety Act would be invalid, MAY:67
survey of ICPs, SEP:140
warns that xenotransplant guidelines may not prevent infections, APR:53

Centers for Disease Control and Prevention
day care center guidelines address HIV and breast milk, MAY:71
day care center guidelines for exclusion/readmission, MAY:72
French HIV case will not change guidelines, MAR:33
HICPAC asks to reopen infected provider issue, FEB:17
issues guidelines to prevent vancomycin-resistant staph, AUG:113
recommendations to prevent vancomycin-resistant staph, AUG:115
reports first two cases of VISA in U.S., OCT:145
survey of ICPs, SEP:140
TB guidelines differ from OSHA, DEC:183
tracking highly virulent, multiresistant strains of TB, DEC:184
urges patient-designated fingerstick devices due to HBV, MAY:76
warns against TB complacency, AUG:121

Clinical pathways
can reduce nosocomial infections in laminectomy patients, OCT:152
laminectomy patient education, OCT:154

Food and Drug Administration
tracking transplants with human tissue, JAN:6

French HIV surgical case
surgeon-to-patient transmission reported, FEB:19
U.S. guidelines will not change, MAR:33

Gloves
NIOSH alert about latex allergies, OCT:155

***Group A* Streptococcus**
cluster hits maternity unit, MAY:68
educational handout, MAY:69
exposures may warrant prophylaxis, JUN:89
patient care failing cited, NOV:169

***Group B* Streptococcus**
necrotizing faciitis infections increase, DEC:185

Guest columnist
infection control consulting contracts, JAN:10
vancomycin-resistant staph in Japan, JUL:100

Hand washing
compliance improves via staff monitors, JUL:108

Hantavirus
Andes strain may spread person-to-person, AUG:124

Healthcare Infection Prevention
OSHA TB rule in long-term care, DEC:insert
pneumococcus vaccine in long-term care, DEC:insert

Health care workers
HICPAC to issue health guideline, FEB:22
study finds no long-term carriage of pathogens, FEB:30

Hepatitis
HBV mutant cases and e-antigen policies, MAR:36

er department at (800) 688-2421; inside Georgia (404) 262-7436.
alth Consultants®. Editor: Gary Evans.

HEALTH RESOURCE LIBRARY
NORTHWEST COMMUNITY HOSPITAL
NOV 4 1997
06-25-98 11:07
RECEIVED FROM:847 618 5189

HBV spread via fingerstick devices, MAY:76
HCV-infected surgeon urges patient testing, MAY:75
HCV general information, MAY:76

HIV
OR nurse infected with HIV sues hospital after dismissal, MAR:38
surgeon-to-patient transmission of HIV in France, FEB:19
U.S. guidelines will not change because of French case, MAR:33

Hospital construction
Preventing infections during construction via risk matrix, FEB:26

Hospital Infection Control Practices Advisory Committee
asks CDC to reopen infected provider issue, FEB:17
employee health guideline will be issued, FEB:22

Infection Control Consultant
CDC day care guidelines on HIV and breast milk, MAY:71
consulting contracts, JAN:10
extending hospital programs to physician offices, JAN:7
infection control survey for medical offices, JAN:8
pneumococcal vaccine in nursing homes, JAN:9
rehab hospital infection control efforts, SEP:135
shingles information for rehab settings, SEP:136
VRE a problem pathogen cross-continuum, MAR:39
VRE guidelines for long-term care, MAR:41
VRE policies in rehab settings, SEP:137

Infection control professionals
consortium addresses physician infection control, JAN:13
Darwinian bottom line learned, JUL:104
Joint Commission says ICPs must defend own turf, SEP:131
pediatric ICPs link programs via computer, JAN:11
ICPs play key roles in solving community pneumonia outbreak, APR:49
surveys of ICPs by APIC, CDC, SEP:140
urged to return passion to field, JUL:103

Intensive care units
formula preparation guidelines for NICUs, NOV:168
front lines against antibiotic resistance, SEP:139
NICU outbreak of *Pseudomonas*, NOV:164

Joint Commission on Accreditation of Healthcare Organizations
not retreating from infection control standards, SEP:129
ORYX program highlights, SEP:133
standards emphasize ICP expertise, SEP:131

Journal Reviews
JAN:14; FEB:32; MAR:46; APR:62; MAY:79; JUN:94; AUG:126; NOV:174; DEC:190

Latex allergy reactions
NIOSH issues alert on latex allergies in health care, OCT:155
NIOSH recommendations to prevent latex allergies, OCT:157
zinc gel may prevent, NOV:170

Legionnaires' disease
outbreak traced to whirlpool spa display, APR:49
staff handout, APR:52

Legislation
Patient Safety Act would disclose staffing, infection rates, MAY:66

Long-term care
OSHA TB rule, DEC:insert
pneumococcus vaccine issues, DEC:insert
pneumococcal vaccine urged, JAN:9
target surveillance, drop unproven practices, JUN:88

Methicillin-resistant **Staphylococcus aureus**
first toxic shock outbreak with reported, JUN:86

MMWR *Update*
anergy testing with TB skin testing, NOV:173
false-positive TB cases due to lab errors, OCT:159
infectious disease still world's top killer, MAY:78
resistant strep and the HIV-infected, JUN:93

National Institute of Occupational Safety and Health
issues alert on latex allergies in health care, OCT:155
recommendations to prevent latex allergies, OCT:157

Needlesticks
blunt suture needles protect surgeons, patients, MAR:43
HBV spread via fingerstick devices, MAY:76
phlebotomy injuries reduced by safety designs, APR:56
recommendations for prevention during phlebotomy, APR:59

Occupational Safety and Health Administration
APIC challenges TB standard, DEC:177

highlights of proposed TB standard, DEC:181
need for TB standard questioned, AUG:118
where TB standard differs from CDC, DEC:183

Patient Safety Act
APIC says data generated would be invalid, MAY:67
Bill would disclose staffing, infection rates, MAY:66

Pseudomonas aeruginosa
NICU outbreak caused by virulent strain, NOV:164
Q&A, NOV:167

Reader Questions, Letters
bio-monitoring sterilization, APR:61
isolation signs and confidentiality, JAN:16
jail medical units and TB controls, MAR:46

Society for Healthcare Epidemiology of America
recommendations on infected providers, JUL:107
updates guidelines on infected providers, JUL:103

Surgical site infections
cost $2.5 billion annually in U.S., JUN:87

Transplants
allograft patients face infection threat, JAN:1
donor-transmitted infections in allografts, JAN:5
FDA tracking those with human tissue, JAN:6
time line for infections to occur in allografts, JAN:3

Tuberculosis
APIC challenges OSHA standard, DEC:177
CDC tracking highly virulent, multiresistant strains, DEC:184
declines in U.S. as CDC warns of complacency, AUG:121
highlights of OSHA's proposed standard, DEC:181
need for OSHA standard questioned, AUG:118
where OSHA proposed rule differs from CDC, DEC:183

Vancomycin resistance in **Staphylococcus aureus**
CDC confirming first case from Japan, JUN:81
CDC issues guidelines to prevent, AUG:113
CDC recommendations to prevent, AUG:115
CDC reports first two cases of VISA in U.S., OCT:145
CDC warns fully resistant strains may appear, OCT:148
clinicians issue strict guidelin , JUN:84

emergence in Japan a warnin to U.S., JUL:97
manipulating antibiotic use nay lower infections with, DEC:186
restrict vancomycin use t curtail, AUG:117
second U.S. VISA a bloc ream infection, OCT:147
Synercid effective in lab 's, JUL:99
vancomycin cutbacks dift t, OCT:149
vancomycin use and perito l dialysis, OCT:150

Vancomycin-resistant ente occi
call-bell outbreak in Cana , FEB:26
costly, resilient bug, NO 53
increases 5,000-fold sinc 989, NOV:161
rapid tests may ease isol n, FEB:31
spreading to Canada fro U.S., FEB:23

Xenotransplantation
APIC warns guidelines m not prevent infections, AP 3
humans infected via rese h primates raise questior APR:55
